

DART Orange Line to North Irving/DFW

Walnut Hill/Hurd Dr

## Construction Update

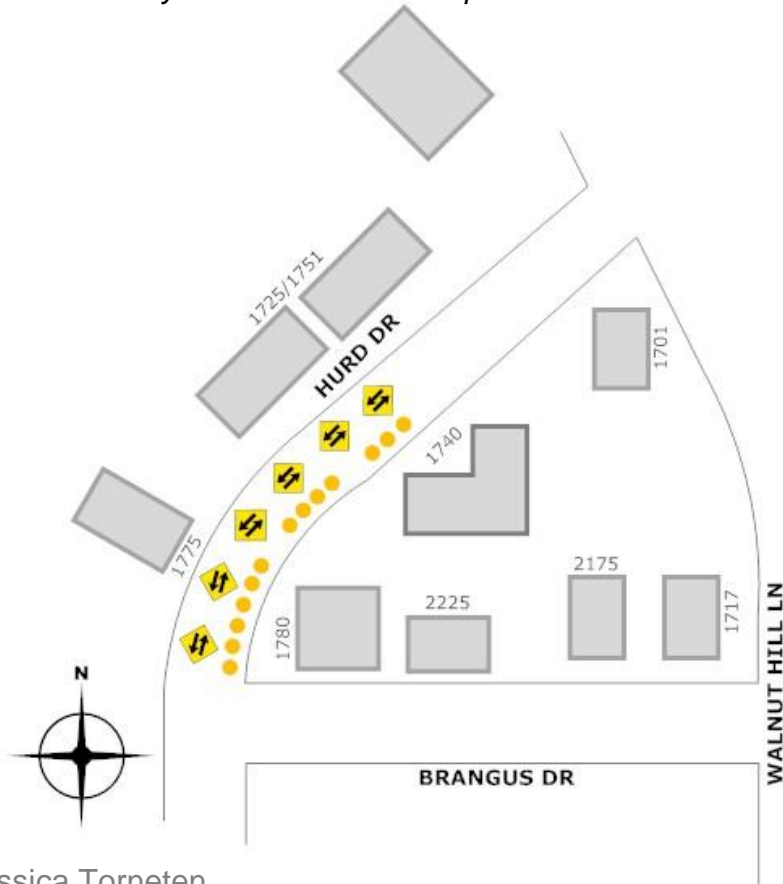

The DART Orange Line construction is quickly moving along the corridor and into the Walnut Hill/Hurd Dr area. In an attempt to minimize impacts, weekly construction updates are emailed out. This helps provide a more definitive answer to many construction questions, and provides notice to areas that may experience upcoming traffic delays or construction activity.

You can register for Orange Line Construction Updates online at [www.dart.org](http://www.dart.org).

These lane restrictions are needed to provide a safe work area as crews continue utility relocation work and prepare for future construction activities. As construction proceeds over the next couple of years, additional lane restrictions and configuration changes will be needed to accommodate other construction activities. Signage will be present to direct motorists.

*The following configuration is scheduled to begin the week of March 22 and will remain in place through May. Variations of this configuration will be required for crews to safely complete activities. Please continue to monitor construction alerts for these changes. Please note that all dates are tentative as they do not account for weather delays or other schedule impacts.*

Hurd Dr will be restricted for utility relocation work beginning the week of **March 22** - with variations of these restrictions in place through May. Please continue to monitor construction alerts for changes to this traffic configuration.

Impacts to business drives will be coordinated with properties affected.

Please use caution when traveling through construction zones, observe any changes to speed limits or detours, and be aware of the construction workers delivering this project.
