

TRANSFORMATION:

A Procurement Initiative

Now you can work with DART Procurement the "e" way – as in electronic, environmentally friendly and easy!

Here are just a few of the advantages of our new eProcurement system:

- Online supplier portal registration
- Submit and view responses online
- Less paper and fewer forms

It's all about less mess and less stress. The end result?

An automated procurement process that makes it easier than ever to learn about great opportunities!

All vendors must re-register in Fall 2011. Visit DART.org/procurement for more details.
